VALUABLE REAL ESTATE
AT AUCTION.
ON SATURDAY, SEPT. 25th,
At 12 o'clock, M., at Aliolani Hale, (Government House),
By order of Mr. R. W. MALKIN, I am instructed to sell at
Public Auction, the
Following Pieces of Land

ALL THAT PIECE OF LAND AT MANOA VALLEY, Island of Oahu, containing 22 98-100 acres, described in Royal Patent, No. 1250, to John Stevenson, as follows: claim 1250, part 2, section 1, division 1.

Also, all that PIECE OF LAND, containing 9 98-100 acres, described in said patent.

Also, all that PIECE OF LAND, containing 7 98-100 acres, described in said patent.

The above all adjacent and consist of good kula and valuable lands. There is a constant stream of mountain water running through them, and as about 10 acres consist of the best kula land in Manoa Valley, this offers a very rare chance to all persons to make a first class investment. The property is well known as having formerly been the residence of the late Hon. J. W. E. MALKIN, and lately the residence of Ehu, deceased, the grandfather of the present proprietor.

Also, all that PIECE OF LAND, containing 9 98-100 acres, described in said patent.

SOMETHING
WORTH HAVING!!
A THING OF BEAUTY, IT IS SAID, IS
NEVER OUT OF FASHION. It is the SEWING MACHINE
with one of the

PATENT WATER WHEEL
ATTACHMENTS!
is one of the most beautiful things in the world; nothing
in the whole range of modern invention being better adapted
to relieve human drudgery or better for the purposes of
agriculture.
The undersigned are Special Agents for
THE "DOMESTIC"
WHICH IS THE
BEST SEWING MACHINE IN USE!
50 POINTS OF SUPERIORITY!
For Particulars see Circulars.
WE ARE PREPARED TO FURNISH THE

PATENT ATTACHMENT!
to any of the machines now in use, which will turn them perfectly
without the least exertion on the part of the operator. These
wheels are made here at the BRASS FOUNDRY, and are
superior to those imported, and sold at low prices.
BUY ONE AND YOU WILL BE CONVINCED!
It is a well known fact that the ill health of thousands of
women and girls, can be traced to the exertion required for
sewing. Machines by foot power, and treadle, would be the
cause of their suffering.
DILLINGHAM & CO.
a27 2m

FIRE-WOOD!
JUST RECEIVED FROM TAHITI, EX
TRA W. H. ALLEN.
Superior Iron Wood.
It will burn longer and give greater heat than any other
kind of wood. Nothing in town or place can be better.
For Sale at Reasonable Rates by
S. C. ALLEN.

RESOLUTIONS OF CONDOLENCE.
IN PRIVY COUNCIL.
At a meeting of the Privy Council, held at
Iolani Palace on Wednesday, Sept. 8th, 1875,
the following resolutions on the death of Hon.
E. H. Boyd were unanimously adopted, and
ordered to be printed in the local papers of this
city:
Resolved, That the late Major E. H. Boyd
by his amiable disposition, gentle manners and
generous heart, endeared himself to all with
whom he came in contact, and that we his fellow
members in this Council are sincere mourners for
his death.
Resolved, That His Majesty has lost a faithful
servant and a loyal subject; the nation a valuable
and exemplary citizen; and each of us a true friend.
Resolved, That we deeply sympathize with his
widow and children, and hope that his widow
may find consolation through her future life in
tender memories of a kind husband; and that
his children may keep before them the example
of their father.
JOS. W. KAWAII, Sec'y pro tem.
Iolani Palace, Sept. 8, 1875.

NOTES OF THE WEEK.
BARK JALAWAR, with the mails, is supposed to be
seventeen days out from San Francisco.
The NEXT MAIL for San Francisco will go by the
steamship City of Melbourne, due from the Colonies
next Saturday.
The regular meeting of the Hawaiian Mission
Children's Society will be held this evening at the residence
of Thomas H. Hobron, Esq., Nuuanu Avenue,
at 7 1/2 o'clock.
The FUNERAL of the late Hon. E. H. Boyd will
take place to-morrow (Sunday) afternoon, at 3
o'clock, from the premises on Hotel street known as
Adams' Yard, opposite the residence of Dr. J. S.
McGregor.
The OPIUM LAW went into effect last month. But
the large stock held by the licensed dealers was ex-
pectantly got rid of in view of the law, and now
every Chinaman having opium in his possession has
disposed of it. Some of the old dealers, however, how long
will this excuse suffice--or rather, will it ever cease
to be available?
Escaped PRISONERS.--Last Monday, two convicts
at work with the gang on the esplanade, got away at
midnight and disappeared. On Thursday morning
last, at Waikiki, a couple of boys were hunting for
fawns in the bushes and discovered one of them
asleep. He was captured and returned to prison.
This being his second escape, he will get an addition
to his period of service, and be adorned with a ball
and chain. His companion is still at large.

THE CHINESE COLPORTER.--Mr. Shi Moon, the
Christian Chinaman who several months since ar-
rived here from California, has been preaching to
large audiences of his countrymen every Sunday
evening, at the Bethel, and seems to have made a
good impression. Says the Friend: "The Com-
mittee of the Y. M. C. A. have arranged for the
Colporteur, Shi Moon, to make a circuit of Oahu
during the month of September, and in October
to visit Hilo, and returning to Honolulu will touch
on Maui. His labors thus far have been most sat-
isfactory to the Committee, and now he is most cor-
dially invited to the kind fellowship of his coun-
trymen and others, while making a tour of the
islands."

WHAT NEXT?--A correspondent of the Islander
over the convenient signature of "Taxpayer," is
much exercised because the few industrious natives
who make a living by the manufacture of salt, ex-
pose their wares for sale in wheelbarrows, which for
that purpose they stand along the sidewalk of Hotel
street; whereby, he says, many animals have been
frightened and run away. We doubt in the first place, if
a well authenticated instance can be shown of any
runaway caused by the aforesaid wheelbarrows. Sec-
ondly, it may be a fair question whether these
salt-vendors, whom "taxpayer" asserts are hard-
ly "worth their salt," but who are probably payers
of taxes as well as themselves--have not just as much
right in the street as he. And lastly, it is a novel
doctrine that the agent of the Board of Health is to
see to it that there is nothing on the streets that
may possibly take fright. One would suppose
that the Board of Health had their hands full at
present with dealers in opium salts, without coming
down to the common sort.

CAPT. DANIEL SMITH, Harbor Master.

SATURDAY, SEPT. 11.
By Authority.
It has pleased His Majesty the King to appoint
Mr. Frederick W. Beckley to be Chamberlain to the
Royal Household.
Iolani Palace, Sept. 8th, 1875.

Public Notice.
On the 23d Sept. 1875 the then Minister of the
Interior cautioned the public against trespassing
on any Government land in this Kingdom by the
unauthorized cutting of timber or wood, or other-
wise despoiling said lands of their natural pro-
ducts. As the above notice has been totally dis-
regarded in many districts of the Islands, the
attention of the public is again called to the
matter, and notice is hereby given that any person
disregarding the same hereafter will be prosecuted
to the full extent of the law. W. L. MOHREDA,
Minister of Interior.
Interior Office, Sept. 10th, 1875.

Keena Kalaiala, Sepatemaha 10, 1875.

At Rome, a short time ago, several workmen,
convinced of participation in the plans of the In-
ternational Society, were sentenced to ten years'
imprisonment with hard labor. One of the chief
charges brought against them was for being con-
cerned in posting a seditious pamphlet, from
which the following is an extract:
"We declare war against the triumphant reaction
against the monarchy of divine right, against the
middle-class republic, against capital, the Church,
the State, and all existing social organizations. To
the death we desire the destruction of the State, in
all its economical, political and religious mani-
festations. Consequently we wish the abolition
of the army, of banking and of all forms of worship.
We wish to cause the disappearance from the earth
of all idlers, employers, and all those who injure,
or can injure, the integral development of the
human race."

When the case was on trial the Government re-
garded the proclamation as so infamous that only
the tribunal, the defendants and the counsel were
allowed to be present while it was read. But
probably it would occur to the average thinker
that the quickest mode of disgusting the people
with the International might be to give such
absurd effusions the fullest publicity.

Mr. Editor--One of your correspondents last
week, asks the question: "Where are we drifting
to?" The policy indicated by the Board of Health
in their recent action, gives a peculiar
force to these questions. That policy seems to be
just this: to protect the "guild" of physicians, by
invoking the aid of the law and the Police Court
against any one who dares to give or take physic
except on their terms. Thus we are "drifting"
towards a medical oligarchy, the operation of which
will be something like this: A member of the fam-
ily is taken sick during the night; there is medicine
in the house, but it is contrary to the rule of the
Board of Health that any one not in possession of a
diploma and a license shall prescribe for the sick; a
"regular" doctor is sent for; he does not choose to
come--well, what then? Perhaps the sick person
dies--that's all. It is not to be supposed that a
community of intelligent foreigners are going to
submit to this state of things. To use a favorite
expression of one of the members of the Board of
Health--it is "humbug" to try to do it.

It is hard on the natives, and they feel it. Said
one in my hearing yesterday: "Do the members of
the Board of Health wish to hasten the extinction
of our race? They know we cannot pay the charges
of the regular doctors. With perhaps one or two ex-
ceptions, the haole doctors won't look at us unless they
make the money sure. Many of us don't like to go
to the Hospital, for the ways of the physician there
don't suit us. The Board has prosecuted and im-
prisoned Mohabeker, who did a great deal of good;
they threaten other foreigners who have charitably
prescribed for us and attended on us, that they must
do so no more. What then shall we do? We are
left to our own native kahuna. It is said that these
will do us harm and perhaps kill us. Well, we shall
die if we are not doctored, and we are afraid if we are
doctored. So that we are *piliika* anyway."

It strikes me that just now there is a battle--an
"irrepressible conflict"--going on between the
medical faculty, represented by the Board of Health,
and the public. With all due respect for individuals
comprised in the former, it may with truth be
averred that on no one subject have mankind been so
thoroughly humbugged and fooled as on that of medi-
cine. "If," says a certain writer, "we look into
the profession of physic, we shall find a most for-
midable body of men; the sight of them is enough to
make a man serious; for we may lay it down as a
maxim, that when a nation abounds in physicians, it
grows thin of people. Sir William Temple is very
puzzled to find out a reason why the northern
hives, as he calls it, does not send out such prodigious
swarms, and over-run the world with Goths and
Angles, as it did formerly; but just that excellent
author observed, that there were no doctors in
physic among the subjects of Thor and Woden, and
that this disease flourishes very much in the north at
present, he might have found a better solution for
this difficulty than any of those he has made use of.
This body of men, in our own country, may be de-
scribed like the British army in Caesar's time: some
of them slay in chariots and come on foot. If the
infantry do less execution than the charioteers, it is
because they cannot be carried so soon into all quar-
ters of the town, and dispatch so much business in
so short a time."

Doctors who are not Doctors.
To the Editor of the Pacific Commercial Advertiser:
Sir--The letter in last Wednesday's Gazette about
Dr. Mohabeker and the Board of Health contains
statements likely to mislead the public mind. I beg
leave, very deferentially, to make a few remarks
thereupon.
1. Among the duties of the Minister of the Interior
is that of granting licenses to practice medicine in
this Kingdom. This he does according to the recom-
mendation of the Board of Health, who again are
guided by the action of corresponding authorities in
other countries. What then is the rule in England,
France, Germany and America?
No man is allowed to practice in any one of the
first three of those countries without a license from
the examining body of that country. Thus in Eng-
land a French or German diploma will not suffice.
He must have an English one. The law in all these
three countries is very stringent. In America, as
in this Kingdom, foreign diplomas suffice.
Thus the statement of the clerical correspondent of
J. O. C. that Dr. Mohabeker could, if he had liked,
have practiced in England, is incorrect.
2. With regard to the homoeopathic physician of
this town. He doubtless satisfied the Board of Health
that he had a diploma from a legally constituted
examining body in America or elsewhere. That
means--that he has studied the mechanism and
working of the human body and the history of dis-
ease. He is at liberty to choose his own mode of
curing it. In England the examining bodies are

forbidden under penalty to reject a candidate on
account of peculiar views of treatment.
But the persons who are under the censure of the
Board of Health have passed through no medical
training, and hold no diploma whatever. The
Board examined Dr. Mohabeker who gave answers
that would have shamed a druggist's shop-boy, and
gloried in his ignorance of the body he professed to
be able to cure. Now the business of the Board of
Health is to protect the public health, and the ques-
tion is, is their office a sham or a reality? Are they
or are they not to recommend every impostor who
applies for a license, that he be allowed to prey upon
the people?
The fact is that in this young and imperfectly
organized Kingdom abuses have been allowed that
would not be tolerated in older States. The author-
ities here have licensed native kahuna and Chinese
doctors, to the great injury of the ignorant people.
The right course now is surely to suppress these, not
to license Dr. Mohabeker and his brethren.
For it is surely some disadvantage to the public
to have a man who is ignorant of the body he is
to cure, to turn loose upon that race a medley of
ignorant men, many of whom, be it remembered do
not confine themselves to the more harmless treat-
ment by charms or globules, but fearlessly dose the
poor people with mercury, tartar emetic, pain-killer,
and that grand Hawaiian remedy, "paaka!"
3. It should be understood that Dr. Mohabeker was
not arrested for malpractice. That could only have
been legally done, had he held a license. That he
willfully and knowingly broke the law by practicing
without a license, and for this he was punished.
Finally--it is always a pity when personalities are
introduced without grave necessity into public dis-
cussions. The fact that the medical members of the
Board of Health make no opposition to the granting
of a license to the homoeopathic physician, sufficiently
negatives, I think, the unworthy charge of interested
motives made against them by J. O. C. F. L. H.

The Case of Dr. Mohabeker.
The East Indian, Doctor Mohabeker, who was men-
tioned in these columns nearly a year ago as having
been fined \$100 in the Police Court for practicing
medicine without license, was again before the Court
on Monday last, for the same offense. He was
charged under Section 279 of the Civil Code, which
reads as follows:
Section 279. It shall not be lawful for any for-
eigner, whether naturalized or otherwise, to practice
in this Kingdom as a physician or surgeon, for con-
sumption or reward, unless he shall have first pre-
sented to the Board of Health or to such examiners
as said Board may appoint for that purpose, satis-
factory evidence of his professional qualifications, and
good moral character, and obtained a certificate of
approval from said Board, and a license from the
Minister of the Interior. Any person violating the
provisions of this section shall, upon conviction, be
liable to a penalty of one hundred dollars for each
offense.

The first case called against the Doctor, was for
prescribing for one Emanuel Babich, who testified to
having paid him some \$17, for professional services.
The Court imposed a fine of \$100 and \$50 costs.
The other and separate charges were the following:
Against Mohabeker, for doctored without a license,
"for compensation or reward,"--Abraham Evans,
Manuel Antonio and C. C. Bennett; and in each case
the fine of \$100 and costs was imposed; making in
the aggregate, \$400 fines and \$50 costs. Moha-
beker, failing to pay the fine, was sent to prison, and
on Tuesday was sent out to work on the Esplanade,
with the other prisoners. On Thursday however, he
signified through counsel his readiness to pay the
amount of the fines, which he immediately did so.
The Court then ordered that the four hundred
dollars at the rate of twenty-five cents a day
(as prescribed by law) would have required four
years and four months.

The United States Centennial.
From Mr. Barnet Landreth, Chief of Bureau of
Agriculture, at Philadelphia, we have received the
following circulars, which we publish for general
information.
LIVE STOCK AT THE CENTENNIAL.
It is understood that the Bureau of Agriculture
of the International Centennial Exhibition, has
determined to exhibit Live Stock within the months
of September and October, 1876; the periods de-
voted to each class and family being fifteen days,
and the division as follows:
Horses, mules and asses, (as one class), from
September first to fifteenth.
Horned Cattle, (of all varieties), from September
twentieth to October fifth.
Sheep, swine and goats, (as one class), from
October tenth to twentieth.

An important rule regulating admission requires
that all animals exhibited, be of pure blood, (trout-
ing stock and fat cattle excepted). Another rule
not to be overlooked, excludes all animals, even
though they be thoroughbred, which are not highly
meritorious.
The exhibition being open to the whole world, it is
of the first importance that we bring forward the
best of their kind only, as the character of our
stock will be judged by the general average of those
exhibited.
Exhibitors will be expected to provide for feeding
their stock. An officer of the Bureau, specially
charged with the duty, will
